INDEPENDENT AUDITORS' REPORT

Township Board  
Bruce Township  
Dafter MI 49724

We have audited the accompanying financial statements of the governmental activities, each major fund and aggregate remaining fund information of Bruce Township as of and for the year ended March 31, 2005, which collectively comprise the Township's basic financial statements as listed in the Table of Contents. These basic financial statements are the responsibility of Bruce Township's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, each Major Fund and aggregate remaining fund information of Bruce Township as of March 31, 2005, and the respective changes in financial position where applicable thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Bruce Township implemented the provisions of Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments as of April 1, 2004. This results in a change in the format and content of the basic financial statements.

The Management's Discussion and Analysis on pages 3-7 and the budgetary comparisons on pages 32-35 are not a required part of the financial statements but are supplementary information required by accounting principles generally accepted in the United States

of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purposed of forming opinions on the financial statements that collectively comprise the Bruce Township's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

BRUCE TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS

March 31, 2005

=====

Within this section of the Bruce Township annual financial report, the Township's management provides a narrative discussion and analysis of the financial activities of the Township for the fiscal year ended March 31, 2005. Bruce Township's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. The discussion focuses on the Township's primary government, unless otherwise noted.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The Township also includes in this report additional information to supplement the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Township's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information on the Township's overall status. Financial reporting on this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the Statement of Net Assets. This is the township-wide statement of financial position presenting information that includes all of the Township's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township as a whole is improving or deteriorating. Evaluation of the overall economic health of the Township would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of Township infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the Statement of Activities which reports how the Township's net assets changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of this statement of activities is to show financial reliance of the Township's distinct activities or functions on revenues provided to the Township.

=====

FUND FINANCIAL STATEMENTS

Governmental funds are reported in the financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the Township's governmental funds. The statements report short-term fiscal accountability focusing on the use of spendable resources available at the end of the year. These are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between the two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balance provide a reconciliation to the government-wide statements to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the general fund. These statements and schedules demonstrate compliance with the Township's adopted and final revised budget.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin immediately following the basic financial statements.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which follows the notes to the financial statements.

TOWNSHIP AS A WHOLE

The Township's assets exceed its liabilities by \$911,291 for the fiscal year reported.

Total net assets are comprised of the following:

- (1) Capital assets of \$385,320 include land, property and equipment net of accumulated depreciation and related debt.

TOWNSHIP AS A WHOLE (CONTINUED)

(2) Net assets of \$7,689 are restricted by constraints imposed from outside the Township such as grantors, laws or regulations.

(3) Unrestricted net assets of \$518,282 represent the portion available to maintain the Township's continuing obligations.

The Township's governmental funds reported total ending fund balance of \$529,506 this year. This compares to the prior year ending fund balance of \$673,505 showing an decrease of \$143,999 during the current year.

The Township implemented GASB-34 accounting procedures for the period beginning April 1, 2004, therefore a comparative analysis cannot be performed this year.

In a condensed format, the table below shows the net assets of the Township at March 31, 2005.

	Governmental Activities

### FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUND

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported an ending fund balance of \$529,506. Of this year end total, \$521,817 is unreserved indicating availability for continuing Township activities. Reserved fund balances include \$7,689 committed to public works.

=====

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS (CONTINUED)

The general fund pays for all the Township's governmental services. These services were largely supported by property taxes and state shared revenues.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Township Board amended the budget to take into account events during the year. The most significant changes were increases to expenditures for public safety. The Township's actual expenditures did not exceed the budgeted expenditures for the year ended March 31, 2005.

CAPITAL ASSET AND DEBT ADMINISTRATION

As of March 31, 2005, the Township had \$535,320 invested in a broad range of capital assets net of accumulated depreciation, including buildings and fire and ambulance equipment. In addition, the Township has invested significantly in roads within the Township. The roads are not reported in the Township's financial statements because of Michigan law, which makes these roads the property of the Chippewa County Road Commission (along with the responsibility to maintain them). Also as of March 31, 2005 the Township had long-term debt of \$150,000 related to the purchase of the aforementioned capital assets.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Because of the impact of Proposal A, the Township needs to continue to watch its budget very closely. The state-wide tax reform act limits growth in taxable value on any individual property to the lesser of 5% or inflation. Because some properties increase in value by less than inflation, the mathematical result of this is that the total taxable value for the Township will grow less than by inflation, before considering new property additions. Also, reductions in State Revenue sharing continues to impact the township.

CONTACTING THE TOWNSHIP'S MANAGEMENT

The Township, for financial purposes, includes all funds relevant to the operations of Bruce Township. The financial statements herein do not include agencies which have been formed under applicable State laws or separate and distinct units of government apart from Bruce Township.

B - GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Bruce Township has no business-type activities or separate component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital or

capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Bruce Township has the general fund and special revenue funds for roads, fire and ambulance, fire equipment, zoning and liquor law enforcement.

C - MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Taxes Receivable - Current or Property Taxes

The Bruce Township property tax is levied on each December 1st on the taxable valuation of property (as defined by State statutes) located in Bruce Township as of the preceding December 31st.

C - MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT  
PRESENTATION (CONTINUED)

Although Bruce Township 2004 ad valorem tax is levied and collectible on December 1, 2004, it is Bruce Township's policy to recognize revenue from the current tax levy in the subsequent year or the current year when the proceeds of this levy are budgeted and made "available" for the financing of operations. "Available" means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period (60 days).

The 2004 taxable valuation of Bruce Township totaled \$45,976,670, on which ad valorem taxes levied consisted of 1.6057 mills for Township operating purposes and .9731 mills for road maintenance/improvements.

The Township reports the following major governmental funds:

General Fund

This is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Road Fund I

This fund accounts for the revenues used to construct roads within the Township for those projects as required by federal or state grants.

Road Fund II

This fund accounts for the millage revenue that maintain and improve roads within the Township.

Additionally, the Township reports the following fund type:

Agency Funds

Agency Funds are used to account for assets held by the Township as an agent for individuals, private organizations, other governments, and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C - MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT  
PRESENTATION (CONTINUED)

All other revenue items are considered to be available only when cash is received by the government.

Private-sector standards of accounting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's tax collection function and various other functions of the government. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenue include: (1) charges to customers or applicants for goods, services or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes.

D - ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY

Bank Deposits and Investments - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of twelve months or less when acquired. Deposits are recorded at cost.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds."

All trade and property tax receivables are shown as net of allowances for uncollectible amounts. Property taxes are levied on each December 1st on the taxable valuation of property as of the preceding December 31st. Taxes are considered delinquent on March 1st of the following year, at which time penalties and interest are assessed.

D - ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (CONTINUED)

Inventories and Prepaid Items - All inventories, including the cost of supplies, are expensed when purchased. Payments made to vendors for services that will benefit periods beyond March 31, 2005, are recorded as prepaid items.

Capital Assets - Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$200 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Buildings	40 to 60 years
Building Improvements	15 to 30 years
Vehicles	3 to 5 years
Office Equipment	5 to 7 years
Computer Equipment	3 to 7 years

Long-Term Debt - In the government-wide financial statements, outstanding debt is reported as liabilities. The government fund financial statements recognize proceeds of debt as other financing sources of the current period.

Grants and Other Intergovernmental Revenue - Federal grants and assistance awards for all governmental type funds are recorded as intergovernmental revenue in accordance with the terms of the respective grants.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the reporting period. Actual results could differ from those estimates.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information - Annual budgets are adopted on a basis consistent with U.S. generally accepted accounting principles.

Budgets and Budgetary Control - The Township follows these procedures in establishing the budgetary data reflected in the financial statements.

- a. Each March, the Township Board prepares a proposed operating budget for the fiscal period commencing April 1 and lapses on March 31. The operating budget includes proposed expenditures and the means of financing them.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to April 1, the budget is legally enacted through a resolution passed by the Township Board.
- d. Budgetary control is exercised at the Township Board level for the General Fund. Any revisions that alter the total expenditures of any fund (i.e., budget amendments) require approval by the Township Board. Such amendments are made in accordance with the procedures prescribed under Public Act 621 of 1978.
- e. The budget and approved appropriations lapse at the end of the fiscal year.
- f. The Township does not record encumbrances in the accounting records during the year as normal practice and, therefore, no outstanding encumbrances exist at year end.

Budgeted amounts are as originally adopted or amended by the Township Board during the year. Individual amendments were not material in relation to the original appropriations which were amended. The modified accrual basis of accounting is used for budgetary purposes.

The General fund budget was adopted on the basis of activities or programs financed by the General Fund.

Michigan Public Act 621 of 1978 (the Budgeting Act) requires that budgets be adopted for Governmental Funds. U.S. generally accepted accounting principles require that the financial statements present budgetary comparisons for the Governmental Fund Types for which budgets were legally adopted. The original budget adopted for the General and the major funds were modified throughout the year through various budget amendments.

- j. The investment pools organized under the local government investment pool act, 1985 PA 121, MCL 129.141 to 129.150.

The Township's deposits and investment policy are in accordance with statutory authority.

At year end, the carrying amount of the Township's primary and fiduciary deposits was \$743,620 and the bank balance was \$745,446. Of the bank balance, \$343,752, was covered by federal depository insurance according to FDIC regulations. Also, during the year the Township had funds in excess of \$100,000 on deposit in a particular financial institution which would not have been covered by federal depository insurance.

These deposits are in various financial institutions in varying amounts. All accounts are in the name of the Township. They are recorded in Township records at cost. Interest is recorded when the deposits mature or is credited to the applicable account.

NOTE 6 - RESTRICTED NET ASSETS AND CONTINGENCIES

The Township received \$7,689 under the Metropolitan Extension Telecommunications Right-of-Way Oversight Act (PA 48 of 2002, MCLS 484.3101 - 3120), also known as the "Metro Act". This represents the Township's portion of the fees being paid to the state by telecommunication providers for the Right-of-Way used within the Township. This funding is restricted in use to the maintenance of the aforementioned right-of-way. As of March 31, 2005, no expenditures have been made for this purpose. The restricted balance as of March 31, 2005 is \$7,689.

NOTE 7 - LONG-TERM DEBT

Long-Term debt obligations of the Township are reflected in the General Long-Term Debt Group. This debt was utilized to finance the purchase of a capital asset. The debt proceeds are shown in the financial statements as Other Resources. Repayments of principal and interest will be accounted for in the General Fund.

Accrued interest of \$3,535 has been reported as current liabilities on the statement of net assets.

NOTE 8 - RISK MANAGEMENT

The Township is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries, as well as workmens compensation benefits provided to employees.

The Township participates in the Michigan Township Participating plan for general liability, property loss, automobile, professional, public official errors and omissions liabilities. This plan is a self insurance risk association operating within the State of Michigan pursuant to Act 138, Michigan Public Acts of 1982. This plan through its risk manager, secures insurance policies or reinsurance treaties to cover the risks undertaken on behalf of the Township above the \$100 deductible amount. The Township pays an annual premium of \$11,668 for this plan. The plan has a maximum liability for general liability of \$3,000,000, wrongful acts of \$2,000,000 and automobile liability of \$1,000,000.

NOTE 8 - RISK MANAGEMENT (CONTINUED)

Therefore, the Township has no additional liabilities beyond the contribution made to the Michigan Township Participating Plan for general liability, property loss, automobile, professional, public official error and omissions liabilities as it is covered by insurance policies or reinsurance treaties obtained by the plan.

In addition, the Township has purchased commercial insurance for workmens compensation benefits.

Settled claims for the insurance have not exceeded the amount of coverage in the past three years. There was no reduction in coverage obtained through insurance during the past year.

NOTE 9 - CONTINGENT LIABILITIES

The Township has received financial assistance from state and federal agencies in the form of various grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreement and is subject to audit by the grantor agency. Any disallowed claims resulting from such audits could become a liability of the applicable fund of the Township. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the Township at March 31, 2005.

NOTE 10 - POSTEMPLOYMENT

Bruce Township does not provide any postemployment benefits and, therefore, no accrual has been recorded for these benefits as of March 31, 2005.

NOTE 11 - COMPENSATED ABSENCES

The Township does not have a vacation or a sick leave benefit policy and, therefore, no accrual has been recorded for these benefits as of March 31, 2005.

NOTE 12 - CHANGES IN ACCOUNTING PRINCIPLE

Effective March 1, 2004, the Township implemented several new accounting standards issued by GASB:

Statement No. 33, Accounting and Financial Reporting for Non-Exchange Transactions, as amended by Statement No. 36, Recipient Reporting for Certain Shared Non-Exchange Revenues, which establishes standards for recording non-exchange transactions on the modified accrual and accrual basis of accounting.

Statement No. 34, Basic financial Statements - and Management's Discussion and Analysis - for State and Local Governments, as amended by Statement No. 37, Basic Financial Statements - Management's Discussion and Analysis - for State and Local Governments Omnibus, which established new financial reporting standards for state and local governments. This statement requires significant change in the financial reporting model used by local governments, eliminating account groups and utilizing full accrual basis of accounting and the economic resources measurement focus. Another significant change is the Management Discussion and Analysis Section, which provides an overall analysis of the financial position and results of operations and conditions that could have significant effect on the financial position or results of operations.

Statement No. 38, Certain Financial Statement Note Disclosures, which requires certain note disclosures when implementing GASB Statement 34.

NOTE 13 - BUDGET AMENDMENT

Bruce Township  
Dafter MI 49724

We have audited the financial statements of Bruce Township for the year ended March 31, 2005, and have issued our report thereon dated September 30, 2005. Professional standards require that we provide you with the following information related to our audit.

AUDITOR'S RESPONSIBILITY UNDER U.S. GENERALLY ACCEPTED AUDITING STANDARDS

As stated in our engagement letter dated September 1, 2005, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with U.S. generally accepted accounting principles. Because an audit is designed to provide reasonable, but not absolute assurance and because we did not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us.

SIGNIFICANT ACCOUNTING POLICIES

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Bruce Township are described in Note 1 to the financial statements.

During the year ended March 31, 2005, the Township did not initiate or change any of their significant accounting policies. The Township did implement GASB Statement No. 34, as amended by Statement No. 37, and Statement No. 38 effective April 1, 2004.

OTHER COMMUNICATIONS

Auditing standards call for us to inform you of other significant issues such as, but not limited to, 1) Accounting estimates that are particularly sensitive because of their significance to the financial statements or because of the possibility of that future event affecting them may differ from management's current judgment;

2) Significant audit adjustments that may not have been detected except through the auditing procedures we performed; 3) Disagreements with management regarding the scope of the audit or application of accounting principles; 4) Consultation with other accountants; 5) Major issues discussed with management prior to retention; and 6) Difficulties encountered in performing the audit.

#### COMMENTS AND RECOMMENDATIONS REGARDING INTERNAL CONTROLS

As part of our audit, we considered the internal control of Bruce Township. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control. Accordingly, we do not express an opinion on the system of internal control structure of Bruce Township taken as a whole. However, our procedures disclosed the following conditions that we would like to bring to your attention.

#### CASH AND INVESTMENTS

At year end, the Township had \$401,694 in deposits with financial institutions that were uninsured by federal depository insurance. Also, during the year the Township had funds in excess of \$100,000 on deposit in a particular financial institution which would not have been covered by federal depository insurance. We recommend that the Township insure all funds.

#### SEGREGATION OF DUTIES

Separation of duties between persons who authorize transactions and persons who have control over the related assets does not exist to the extent possible in larger entities with several employees involved in the accounting process.

The least desirable accounting system is one in which the employee is responsible for executing the transaction and then recording the transaction from its origin to its ultimate posting in the General Ledger. This increases the likelihood that intentional or unintentional errors will go undetected. In most cases, adequate segregation of accounting duties substantially increases control over errors without duplication of effort.

The desired separation of duties cannot be achieved with a few employees involved. The careful and consistent oversight provided by the Township Board appears to offset the inability to separate various accounting functions and should be continued. The Township Board maintains monitoring of current operations. Operating results are reviewed monthly which provides significant oversight for the inspection of any irregularities and discrepancies. The cost for additional staff to enable separation of duties is likely not economically justified and therefore, the Township Board's oversight is assisting in this internal control function. Our finding is intended only to point out that this element of internal control separation of duties does not, and at present, cannot exist.

In addition to the above reportable conditions, we became aware of some matters that are opportunities for strengthening internal controls and operating efficiency.

This report is intended solely for the information and use of the Township Board.
